

Dear Madam or Sir,

In my opinion, the DPIA template should be slightly modified to distinguish the "legal" part from the "IT" part and the "joint" parts.

Simply marking parts as "legal", "IT", and "joint" would be sufficient.

In that way, legal professionals, as well as IT professionals, would, in advance, know which part to fill, without any possible confusion.

The DPIA template would be even easier to read than the existing template.

My second proposal is to create a comprehensive "three-in-one" LIA, DPIA, and FRIA template.

Kind regards,
Marko Pać
