APPENDIX 2. THE COUNTRY REPORTS (*in alphabetical order*) ..... 9

# 1. BACKGROUND

The Schengen Information System (SIS) allows information exchange for border management and for police and judicial cooperation in criminal matters in Europe. A renewed SIS became fully operational in March 2023 with new alerts capabilities, upgraded data and other enhanced functionalities.

On 7 March 2023, the new provisions on the establishment, operation and use of the SIS entered into force (the so-called 'SIS Recast'). As Article 62 of the Regulation 2018/1725 states that where a European Union act refers to this Article, the European Data Protection Supervisor and the national supervisory authorities, each acting within the scope of their respective competences, shall cooperate actively within the framework of their responsibilities to ensure effective supervision of large-scale IT systems and of European Union bodies, offices and agencies, the EDPB created the Coordinated Supervision Committee (CSC) and regulated it in Title VII of the EDPB Rules of Procedure. The CSC ensures coordination in the supervision of the processing of personal data in the SIS in accordance with Article 57 of Regulation (EU) No. 2018/1861, and Article 71 of Regulation (EU) No 2018/1862.

The transition of coordinated supervision from the SIS II Supervision Coordination Group (SCG)<sup>1</sup> to the CSC was successful and seamless. The SIS II SCG itself had taken over from the Schengen Joint Supervisory Authority (JSA)<sup>2</sup> when the second-generation SIS (SIS II) entered into force on 9 June 2013.

The CSC decided to take stock of the most relevant ongoing activities of the SIS II SCG, such as the coordinated inspections on the alerts regarding discreet and specific checks under Article 36 of the SIS II Decision and the updated Guide for the exercise of data subjects' rights.

The SIS has a special legal regime<sup>3</sup> with respect to reporting that requires annual reporting of coordinating activities, rather than biannual reporting as is the norm for other EU IT systems, bodies offices or agencies under the scope of the CSC. Additionally, the SIS Recast provides for a new obligation in relation to reporting to the European Data Protection Board (EDPB) by Member States on the statistics on the exercise of the rights of data subjects related to the SIS.

The CSC is tasked to develop and draft an annual report for the EDPB from information collected and provided by Member States' competent authorities, and provided exceptionally by national data protection authorities (DPAs), on the exercise of data subjects' rights, on court proceedings and on mutual recognition of final decisions regarding the SIS pursuant to Article 54(3) of Regulation (EU) 2018/1861 and Article 68(3) of Regulation (EU) 2018/1862<sup>4</sup>. According to Article 54(4) of the SIS regulation, the reports from the Member States should be included in the joint report of activities.

This is not per se a CSC activity but a report of Member States 'activities' with respect to the handling of the exercise of data subjects' rights vis-à-vis the SIS at three levels: data controller, DPA as administrative redress, and courts as judicial redress.

The EDPB has been entrusted with this task via the legislation in order to enable the monitoring and evaluation of data subject rights processes in practice under the SIS.

<sup>2</sup> [https://www.edps.europa.eu/data-protection/our-work/publications/scg-documents/archived-webpage-former-schengen-joint\\_en](https://www.edps.europa.eu/data-protection/our-work/publications/scg-documents/archived-webpage-former-schengen-joint_en).

<sup>3</sup> Obligations under Article 54.3 of Regulation (EU) 2018/1861 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of border checks, and amending the Convention implementing the Schengen Agreement, and amending and repealing Regulation (EC) No 1987/2006 and Article 68.3 of Regulation (EU) 2018/1862 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of police cooperation and judicial cooperation in criminal matters, amending and repealing Council Decision 2007/533/JHA, and repealing Regulation (EC) No 1986/2006 of the European Parliament and of the Council and Commission Decision 2010/261/EU.

<sup>4</sup> Obligations under Article 54(3) of Regulation (EU) 2018/1861 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of border checks, and amending the Convention implementing the Schengen Agreement, and amending and repealing Regulation (EC) No 1987/2006 and Article 68(3) of Regulation (EU) 2018/1862 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of police cooperation and judicial cooperation in criminal matters, amending and repealing Council Decision 2007/533/JHA, and repealing Regulation (EC) No 1986/2006 of the European Parliament and of the Council and Commission Decision 2010/261/EU.

The report of activities will normally be made on an annual (calendar year) basis including national reports submitted to CSC by 31 March of the year following the reporting period. For this annual report under the supervision of the CSC, the nominal period covered is from 01 January 2024 up to 31 December 2024. The data from the Member States reports are added in Appendix 2.

## 2. 2024 MAIN ACHIEVEMENTS

### 2.1 Collection of statistics on data subject rights

As previewed above, the CSC is tasked with developing and drafting an annual report from information provided by Member States to submit to the EDPB on the exercise of data subjects' rights, on court proceedings, and on mutual recognition of final decisions. This collection of data is to be included in the joint report of activities regarding the SIS pursuant to Article 54.3 of Regulation (EU) 2018/1861 and Article 68.3 of Regulation (EU) 2018/1862.

The format of the template for use by Member States to report on data subject rights related to the SIS regulations is set out in Commission Implementing Decision (EU) 2022/2206<sup>5</sup>.

2024 is the second year for which CSC will publish a report on these SIS statistics.

In 2023, the CSC adopted a model letter for national DPAs to send to Member State competent authorities for SIS to raise awareness on the new obligation to collect statistics on data subjects' rights. The letter includes information on the obligations and court proceedings, the template laid down by the Commission's Implementing Decision indicating the statistics to be provided and details of where to transmit the statistics collected (i.e., the CSC Secretariat).

### 2.2 SIS Article 36

During 2019, the SIS II Supervision Coordination Group (SCG) was informed of reports of an increase in Article 36<sup>6</sup> alerts in the SIS. These alerts relate to discreet surveillance, which are generated and used without the knowledge of the individual concerned.

This increase was confirmed, and the SCG agreed to conduct a coordinated activity, which would involve a short questionnaire and onsite checks. The purpose of this exercise was twofold: to gather more specific information and statistics about the use of Article 36 alerts by competent authorities; and to enable the national DPAs to assess the legality and the conditions under which such alerts are inserted and maintained in SIS II.

A short questionnaire was developed by the SCG to gather specific information and statistics about the use of Article 36 alerts by Member States. A checklist for national DPAs to use during onsite inspections was also developed.

However, with the advent of the COVID-19 pandemic in 2020 few DPAs were able to conduct inspections before they stopped for almost two years. In 2022 and 2023 the DPAs resumed this activity.

This work, initiated under the SCG, was transferred to the CSC. The CSC members have reported on their supervision actions and the findings have been assessed by CSC. A report was published in October 2024<sup>7</sup> drawing conclusions on the level of compliance, identifying any issues, and providing a set of recommendations with regard to the documentation of the alerts, their quality, the time limits and retention period, as well as substantive and technical issues.

<sup>5</sup> [Commission Implementing Decision \(EU\) 2022/2206 of 11 November 2022 laying down the reporting template for the annual reports to the European Data Protection Board by Member States on the exercise of the rights of data subjects related to the Schengen Information System.](#)

<sup>6</sup> Article 36 of [Regulation \(EU\) 2018/1862 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System \(SIS\) in the field of police cooperation and judicial cooperation in criminal matters, amending and repealing Council Decision 2007/533/JHA, and repealing Regulation \(EC\) No 1986/2006 of the European Parliament and of the Council and Commission Decision 2010/261/EU.](#)

<sup>7</sup> [https://www.edpb.europa.eu/our-work-tools/our-documents/csc-documents/report-article-36-alerts-schengen-information-system\\_en](https://www.edpb.europa.eu/our-work-tools/our-documents/csc-documents/report-article-36-alerts-schengen-information-system_en)

## **2.3 SIS Article 40**

SIS Article 40<sup>8</sup> alerts enable Member States to enter data, such as partial fingerprints, on unknown wanted persons. Such alerts should only be entered into SIS when there is a very high probability that they belong to the perpetrator of a terrorist act or other serious crime. From the outset of its supervision, the CSC has monitored the statistics on these alerts, since this is a new alert in the SIS within the new capabilities of the system.

In the first three months of operation, only 14 alerts by two Member States were introduced to the system. The concerned Member States were advised in case they wished to verify the alerts or check for further information.

The CSC members also exchanged information related to the interpretation of Article 40 and on the existence of national provisions or internal policies establishing criteria or providing guidance to ascertain the requirement of very high probability that the latent fingerprint belongs to a perpetrator.

The CSC continues to monitor Article 40 alerts and reviewed the statistics after one full year of operation of the new SIS at the May 2024 meeting. The number of alerts was low and involved only a very few Member States. The low alert level means that a coordinated activity is not required currently, but the DPAs of the Member States can query specific instances at national level to obtain insights on how the alerts are being applied.

The CSC will continue monitoring statistics on the creation of these alerts.

## **2.4 Legal interpretation of provisions of the audit cycle**

During 2023, the CSC has started to work on the legal interpretation of Articles 55.2 and 56.2 of SIS Regulation (EU) 2018/1861 and Articles 69.2 and 70.2 of SIS Regulation (EU) 2018/1862 concerning the audit cycle, the extent and comprehensiveness of audit, and the use of international auditing standards. This is an ongoing activity that was inherited by the CSC from the SIS SCG.

This issue is important for all DPAs because the obligation to carry out an audit at regular intervals falls upon the EDPS and national DPAs. Similar audit provisions exist in other legal instruments (for example, EES, ETIAS, interoperability, VIS, etc.), so the outcome of this CSC legal assessment is key to establishing the precise methodology and frequency of the audits that the DPAs should perform for other EU IT systems.

Following preliminary discussion in CSC, a draft proposal for a common approach is being prepared for further consideration in the committee.

## **2.5 Commission Schengen Evaluation**

The European Commission, represented by officials from DG JUST and DG HOME, made a presentation to the CSC at their September 2023 meeting. The new SIS was described along with the existing tools that were available to support Member States to implement the system.

The presentation covered the new Schengen Evaluation Framework (SCHEVAL)<sup>9</sup>. Issues raised during the presentation included the composition of the SCHEVAL pool of experts, training, exchange of relevant information, thematic evaluations, and the security accreditation of experts. The CSC has continued to cooperate with the Commission through training of data protection experts and the organisation of evaluation exercises for training purposes.

In the July 2024 CSC meeting the European Commission presented the Schengen Scoreboard, the KOEL platform set up to facilitate exchange of communication among the Member States and the Commission and some additional issues including an exchange on the experience from recent SCHEVAL evaluations conducted under the new methodology, the inspection plan for the next few years and the state of play of implementation of EES/ETIAS into SCHEVAL.

## **2.6 eu-LISA information sharing**

The European Union Agency for the Operational Management of Large-Scale IT Systems in the Area of Freedom, Security and Justice (eu-LISA) was established to provide a long-term solution for the operational management of large-scale EU IT systems, which are essential instruments in the implementation of the asylum, border management and migration policies of the EU.

The CSC promotes regular contact, sharing of information and queries with the eu-LISA's Data Protection Officer (DPO), and considers this an extremely useful part of its supervisory activities enabling it to detect emerging issues and better shape its supervisory activities.

The CSC invited the eu-LISA's DPO to present the status of the new SIS after its first three months of operation, and the Committee aims at further enhancing the cooperation and bilateral exchange on the latest statistics trends. The eu-LISA's DPO reported at the CSC May and July 2024 meeting including extensive information on the first year of entry into operation of the new SIS.

## **3. 2024 REPORT OF SCHENGEN INFORMATION SYSTEM STATISTICS PROVIDED BY MEMBER STATES**

### **3.1 Methodology-legal references**

Regulation (EU) 2018/1861 and (EU) 2018/1862 laid down rules on the establishment, operation and use of the SIS and aimed to increase the effectiveness and strengthen the technical and operational efficiency of the system while also extending its use by introducing new alerts categories and functionalities. Specific alert reporting obligations are outlined under Article 54(3) of Regulation (EU) 2018/1861 and Article 68(3) of Regulation (EU) 2018/1862.

Regulation (EU) 2018/1860 established a new type of alert on the return of third-country nationals and this is also reported here.

A reporting template was developed for Member States on the exercise of the rights of data subjects related to the SIS. The format of the template for use by Member States to report on data subject rights related to the SIS regulations is set out in Commission Implementing Decision (EU) 2022/2206<sup>10</sup>. The reporting template can be found in Appendix 1 of this report.

### **3.2 General observations**

The quality and granularity of data provided by Member States for this reporting period is hugely variable and, in a number of cases, not reported at all.

Many reports were submitted well after the submission deadline (31 March 2025) and some Member States failed to report at all. It should be noted that no report was received from Austria despite an extended deadline for receipt of national reports.

The reasons for not providing the respective data were, among others, lack of recognition of the competence of the authorities tasked with handling SIS requests to collect comprehensive statistics, or a lack of a centralised tool to obtain and collate these statistics from court systems.

---

<sup>10</sup> Commission Implementing Decision (EU) 2022/2206 of 11 November 2022 laying down the reporting template for the annual reports to the European Data Protection Board by Member States on the exercise of the rights of data subjects related to the Schengen Information System.

The majority of the received reports failed to complete all fields within the template. Where a table cell entry is blank this indicates that either data was not collected or that it was indicated that specific provision was not fully implemented. A 'zero' entry indicated that zero was entered in the template.

The missing data means that a full comparison between Member States and the overall performance of the exercise of data subjects' rights under SIS is problematic.

Reporting on these statistics is a relatively new obligation on Member States, however it is very important for the successful operation of the SIS – and a number of linked EU large-scale IT systems - that this data on data subject rights is recorded, collated and delivered in a timely manner to the European Data Protection Board.

All Member States need to ensure that their internal procedures are fully prepared to be able to register these statistics in the format that they are requested by the Commission Implementing Decision and report it to the European Data Protection Board in a timely manner.

In 2023, the CSC adopted a model letter for national DPAs to send to Member State competent authorities for SIS to raise awareness on the new obligation to collect statistics on data subjects' rights. The letter includes information on the obligations and court proceedings, the template laid down by the Commission's Implementing Decision indicating the statistics to be provided, and details of where to transmit the statistics collected (i.e., to the CSC Secretariat).

In addition, in 2023 the CSC adopted a Guide for exercising data subjects' rights: the right of access, rectification and erasure in the SIS<sup>11</sup>.
