1. BACKGROUND

The Schengen Information System (hereinafter ‘SIS’) allows information exchange for border management and for police and judicial cooperation in criminal matters in Europe¹.

The Coordinated Supervision Committee (hereinafter ‘CSC’) ensures coordination in the supervision of the processing of personal data in the SIS². The CSC is established within the framework of the European Data Protection Board³, in which the European Data Protection Supervisor (hereinafter ‘EDPS’) and the national supervisory authorities, each acting within the scope of their respective competences, cooperate actively to ensure effective supervision of large-scale IT systems and of European Union bodies, offices and agencies⁴.

The SIS Regulations provide for a specific legal regime with respect to reporting obligations. In particular, a joint report of activities as regards coordinated supervision of the SIS by the EDPS and national supervisory authorities shall be sent annually by the European Data Protection Board (hereinafter ‘EDPB’) to the European Parliament, the Council, and the Commission⁵. This report also includes the mandatory annual reports received from Member States⁶ on statistical data concerning the exercise of the rights of data subjects related to the SIS, namely the right of access, rectification of inaccurate data and erasure of unlawfully stored data⁷.

The CSC is tasked to develop and draft this annual report for the EDPB from the information collected and provided by Member States’ competent authorities, as well as by the national data protection authorities (DPAs), on the exercise of data subjects’ rights, on court proceedings and on mutual recognition of final decisions regarding the SIS⁸. Member States’ reports include information with respect to the handling of the exercise of data subjects’ rights concerning the data stored in the SIS at three levels: competent authorities as data controllers, data protection authorities as administrative redress, and courts as judicial redress⁹. The template to be used by Member States to report on data subject rights related to the SIS regulations is set out in Commission Implementing Decision (EU) 2022/2206¹⁰ (see Appendix 1). The CSC joint report of activities is normally issued on an annual (calendar year) basis and includes national reports submitted to the Committee by 31 March of the year following the reporting period.

As for the year 2025, the report of activities carried out by the CSC with regard to the supervision of the SIS can be found in Section 2, while the reports sent by Member States on the exercise of data subjects’ rights, on court proceedings and on mutual recognition of final decisions regarding the SIS, can be found in Appendix 2.

¹ Specifically, the legal instruments governing the SIS are: Regulation (EU) 2018/1860 of the European Parliament and of the Council of 28 November 2018 on the use of the Schengen Information System for the return of illegally staying third-country nationals; Regulation (EU) 2018/1861 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of border checks, and amending the Convention implementing the Schengen Agreement, and amending and repealing Regulation (EC) No 1987/2006; Regulation (EU) 2018/1862 of the European Parliament and of the Council of 28 November 2018 on the establishment, operation and use of the Schengen Information System (SIS) in the field of police cooperation and judicial cooperation in criminal matters, amending and repealing Council Decision 2007/533/JHA, and repealing Regulation (EC) No 1986/2006 of the European Parliament and of the Council and Commission Decision 2010/261/EU.

2. 2025 MAIN ACHIEVEMENTS OF CSC IN THE SIS SUPERVISION

2.1 *Collection of statistics on data subject rights*

The CSC is tasked with developing and drafting an annual report on the information provided by Member States regarding the exercise of data subjects' rights, court proceedings, and mutual recognition of final decisions. The year 2025 is the third year in which CSC publishes a report on the statistics related to the SIS (see *infra*, Section 3). Following the experience from the previous two reports, CSC members shared their views and observations with regard to the reporting template and the interpretation of the information to be provided by Member States. For this reason, before the deadline for submitting the statistical data for 2025, representatives from the Commission, that have been invited to a CSC meeting, provided clarifications and guidance on how to report the relevant information¹¹.

2.2 *Legal interpretation of provisions on the audit cycle*

In September 2025 the CSC issued [recommendations on calculating the audit cycle in EU Large-scale IT Systems](#). The document is the result of a process that began in 2023¹², when the CSC initiated work on the legal interpretation of the provisions of the SIS Regulations concerning the audit cycle¹³. Taking into account EU rules for determining periods, these recommendations provide specific guidance on the calculation of the audit cycle, including when an audit should be considered completed.

This issue is of utmost importance because the obligation to carry out an audit at regular intervals falls upon the EDPS and national DPAs and it is not limited to the SIS, as similar audit provisions exist in other legal instruments (for example, the Visa Information System¹⁴; the Entry-Exit System¹⁵ the European Travel Information and Authorisation System¹⁶ etc.). Hence, the outcome of this CSC legal assessment is crucial for establishing the precise methodology and frequency of the audits that the DPAs should perform, also for other EU large scale-IT systems.

Additionally, compliance with these audit cycles is a key element of the Schengen Evaluations, during which the on-site teams assess whether supervisory obligations have been met. The CSC document can serve as a reference both for evaluated authorities and the on-site teams when evaluating the application of the Schengen acquis.

2.3 *Internal Guidance on SIS Log Checks*

During 2024, a question was raised in the CSC on the methodology to apply when a DPA checks SIS logs. The discussion focussed in particular on how CSC members check the logs at national level as well as what procedures and criteria are used. A questionnaire was developed by the CSC to collect opinions and experiences in the following areas:

¹¹ For more information, see 22nd meeting of the Coordinated Supervision Committee 17 and 18 February 2026, Summary of Minutes.

¹² And even earlier, as this topic concerned an activity inherited by the CSC from the SIS SCG (Schengen Information System Supervision Coordination Group).

¹³ Articles 55 (2) and 56(2) of Regulation (EU) 2018/1861 and Articles 69(2) and 70 (2) of Regulation 2018/1862.

¹⁴ Article 41(3) Regulation (EC) No 767/2008 of the European Parliament and of the Council of 9 July 2008 concerning the Visa Information System (VIS) and the exchange of information between Member States on short-stay visas, long stay visas and residence permits.

¹⁵ Article 55(2) Regulation (EU) 2017/2226 of the European Parliament and of the Council of 30 November 2017 establishing an Entry/Exit System (EES) to register entry and exit data and refusal of entry data of third-country nationals crossing the external borders of the Member States and determining the conditions for access to the EES for law enforcement purposes, and amending the Convention implementing the Schengen Agreement and Regulations (EC) No 767/2008 and (EU) No 1077/2011.

¹⁶ Article 66(4) Regulation (EU) 2018/1240 of the European Parliament and of the Council of 12 September 2018 establishing a European Travel Information and Authorisation System (ETIAS) and amending Regulations (EU) No 1077/2011, (EU) No 515/2014, (EU) 2016/399, (EU) 2016/1624 and (EU) 2017/2226.

- Interpretation of the legal provisions of the SIS regulations defining the obligations of DPAs;
- Findings from Schengen evaluation¹⁷ reports regarding the checking of SIS logs;
- Practical examples and approaches of the DPAs with regard to the checking of logs as part of inspections and audits.

Based on the replies by DPAs, the CSC agreed on internal guidance in September 2025 on SIS log checks, drawing conclusions from the discrepancies in the interpretation of the legal provisions of the SIS regulations defining the obligations of DPAs concerning logs, and including a set of best practices to audit and check SIS logs.

Designed as an internal instrument for DPAs to enhance their coordinated supervision of SIS logs, the focus was on defining responsibilities, as well as supporting the DPAs with practical guidance on how to audit the logging procedure and on how to conduct log checks. In this regard, the guidance mirrored internal discussions on the DPA's role as an independent body in the SIS framework and log checks as an important tool. Further, the necessity to examine log data operations during audits was highlighted including a recommendation for further checks. A collection of best practices to check SIS logs provides for possible approaches and methods that can be used during an audit or inspection.

The CSC is currently working on transposing the content to a publishable guide for SIS competent authorities to support their approach and methodology with regard to log checks.

2.4 eu-LISA information sharing

The European Union Agency for the Operational Management of Large-Scale IT Systems in the Area of Freedom, Security and Justice (eu-LISA) was established to provide a long-term solution for the operational management of large-scale EU IT systems.

Each year, the CSC invites eu-LISA's representatives to present the SIS operation status (for the respective year) and provide an overview of the data stored in the SIS, including operational statistics, statistics on Automated Fingerprint Identification System ('AFIS')/Fingerprint Searches ('FPS') queries, data consistency checks, incidents at central and national systems and alert log entries. At the CSC meeting in June 2025, a representative from eu-LISA, provided specific information on the latest developments regarding SIS and the implementation of the interoperability package¹⁸.

Furthermore, the CSC promotes regular contact, sharing of information and queries with eu-LISA's Data Protection Officer (DPO), and considers this an extremely useful part of its supervisory activities enabling it to detect emerging issues and better shape its supervisory activities.

¹⁷ Council Regulation (EU) 2022/922 of 9 June 2022 on the establishment and operation of an evaluation and monitoring mechanism to verify the application of the Schengen acquis, and repealing Regulation (EU) No 1053/2013.

¹⁸ Regulation (EU) 2019/817 of 20 May 2019 on establishing a framework for interoperability between EU information systems in the field of borders and visa and amending Regulations (EC) No 767/2008, (EU) 2016/399, (EU) 2017/2226, (EU) 2018/1240, (EU) 2018/1726 and (EU) 2018/1861 of the European Parliament and of the Council and Council Decisions 2004/512/EC and 2008/633/JHA; Regulation (EU) 2019/818 of 20 May 2019 on establishing a framework for interoperability between EU information systems in the field of police and judicial cooperation, asylum and migration and amending Regulations (EU) 2018/1726, (EU) 2018/1862 and (EU) 2019/816.

3. 2025 REPORT OF SCHENGEN INFORMATION SYSTEM STATISTICS PROVIDED BY MEMBER STATES

3.1 *Methodology-legal references*

The report concerning the 2025 SIS statistical data on the exercise of data subjects' rights pursuant to Article 54(3) of Regulation (EU) 2018/1861 and Article 68(3) of Regulation (EU) 2018/1862 covers the nominal period comprised between 1 January 2025 and 31 December 2025. The reporting template on the exercise of the rights of data subjects related to the SIS regulations to be used by Member States is set out in the Commission Implementing Decision (EU) 2022/2206¹⁹ and can be found in Appendix 1 of this report.

The collection of statistical data from Member States is generally preceded by DPAs sending a model letter to the competent authorities which aims to raise awareness on the new reporting obligation. This letter includes the reporting template, as well as information on the statistics to be provided and the relevant details for the transmission of the data to the EDPB. Member States are invited to send the relevant statistical data by 31 March of the year following the reporting period. Country reports referring to 2025, which are included in Appendix 2, comprise the data transmitted to the EDPB by using the above-mentioned Commission reporting template by 31 March 2026.

3.2 *General observations*

The great majority of Member States' reports, including statistical data with respect to the handling of the exercise of data subjects' rights concerning the data stored in the SIS, were submitted within the set deadline (31 March 2026). Although the quality and granularity of the information provided by Member States for this reporting period has improved, the majority of the reports did not complete every entry of the template, resulting in missing information.

The missing data prevents a full comparison between Member States and the overall performance of the exercise of data subjects' rights under SIS is still problematic. Reporting on these statistics is a relatively new obligation, yet it is very important for the successful operation of the SIS – and a number of linked EU large-scale IT systems – that the relevant information on the exercise of data subject rights is recorded, collected and delivered in a timely manner to the EDPB.

All Member States need to ensure that internal procedures are put in place to allow the collection of these statistics in the format requested by the Commission Implementing Decision and to report to the EDPB in a timely manner. In addition, consistency in the data collection process is crucial as the reporting obligation was included in the SIS Regulations in order to have an overview of the functioning of remedies for the data subject as well as to facilitate the checking of the use of recourse in Member States. Specific indications to support the reading and interpretation of the relevant statistical data reported in the Member States' reports can be found in the infographic below.

¹⁹ Commission Implementing Decision (EU) 2022/2206 of 11 November 2022 laying down the reporting template for the annual reports to the European Data Protection Board by Member States on the exercise of the rights of data subjects related to the Schengen Information System.

HOW TO READ THE STATISTICS

Please note the following aspects when reading the figures:

- **Where a table cell entry is blank** this indicates that data could not be provided.
- Only the **entry of a zero ('0')** indicates that there were no cases to be reported.
- Where the number of cases is small enough to identify individual cases, they are not recorded individually.
- Due to differences in the data collection methods used by DPAs, their figures may also include complaints next to (indirect) requests. Similarly, some DPAs interpret the number of cases where access to the data was granted (2.b) as referring only to the cases in which access to data was formally ordered to the controller.
- The **section on court proceedings** contains all cases concerning the exercise of SIS data subjects' requests under the SIS Regulations, including judicial remedies against decisions of the data protection authorities on indirect access request or complaints.
- Although the statistics are collected through the Commission reporting template (Appendix 1), the way in which data is reported at national level varies as each Member State needs to take into account national particularities. In some cases, separate notes were provided to additionally explain the reasoning behind certain submissions.

APPENDIX 1. THE REPORTING TEMPLATE

TEMPLATE FOR THE ANNUAL REPORT TO THE EUROPEAN DATA PROTECTION BOARD UNDER ARTICLE 54(3) OF REGULATION (EU) 2018/1861 AND ARTICLE 68(3) OF REGULATION (EU) 2018/1862

Notes:

- (1) In 1a, the numbers provided for the alerts under Regulations 2018/1860 and 2018/1861 are extrapolated from the 3 last months of 2025 where a new system provides detailed numbers. The total number of requests was 8126 in 2025. Concerning Regulation 2018/1862, due to an obsolete application, it is not possible to obtain a reliable, accurate and detailed result. 85 applies to requests for access, rectification and erasure.
- (2) In 2a., 103 applies to requests for access, rectification and erasure (4a and 6a).

Note:

- (1) In Germany, data subject right (DSR) requests are not split between the different regulations. Every DSR is treated the same (overall check).
- (2) Due to security reason, there is no differentiation possible.
- (3) In Germany, data subject right (DSR) requests are generally answered directly by the competent body. The Federal Commissioner for Data Protection and Freedom of Information has not received any indirect DSR requests on SIS in 2025. However, a total of 554 requests/complaints with regard to SIS were registered in 2025.
